Subject: Funny Numbers

Disclaimer

This entire document is fictional and just like the minutes of many meetings you went to before lockdown. You remember when you scratched your head and thought for a moment, I was there and I don't recall agreeing to that?

Introduction

In the fictional world we have done a survey and found some fictional people who think they can discern patterns in the numbers. As though there are some dark forces conspiring in some sinister occult world plan. Next they will be saying there there is an international global force, like that could ever happen!

The Numbers

247 (On 24 July 2020) masks were required in shops and other venues – think about 24/7 as in all the time.

12421 (Opening up on 12 April 21) Can anyone spot an interesting number sequence.

111111 (11th hour, 11th day, 11th month) Armistice day

666 (6th hour, 6th day of the 6th month) D-day

191919 (19 years after 19 hijackers we have Covid 19) Nothing to worry about there then, just a coincidence.

777 (7th day of July in the year 2005 ($2+5=7$)) just another coincidence

Next lockdown reduction is on 175 or AGE

They like 19 or AI (Artificial Intellegence)

ABCDE FGHIJ KLMNO PQRST UVWXYZ

Praise the dear leader.
